The safety of the principal invested always remains the primary objective. All investments shall be designed and managed in a manner responsive to the public trust.

Safety: Safety of principal is the foremost objective of the investment program. Investments of the City shall be undertaken in a manner that seeks to ensure the preservation of capital in the overall portfolio.

Liquidity: Investments will be structured to enable the City to meet all obligations in a timely manner. This shall be achieved by matching investment maturities with forecasted cash flow requirements and by investing in securities with active secondary markets.

Yield: It shall be the design of this policy to earn the greatest return on investments with safety as the primary and liquidity being the secondary objectives of the portfolio structure. The maximum allowable stated maturity of any individual investment owned by the City shall not exceed one year unless approved by the City Council.

Investment officials shall avoid any transaction that might impair public confidence in the City's ability to govern effectively. The Town of Ransom Canyon investment portfolio shall be open public records and shall be made readily available upon request.

Delegation of Authority and Training

The City Administrator/City Secretary is designated as the Investment Officer and is responsible for all investment activities. The Investment Officer of the City, as required by law, must attend a training session once every two years and receive 10 hours of training and such training shall be funded by the City. Continuing education is 8 hours thereafter.

An Investment Committee, consisting of the Mayor, the Mayor Pro-tem and the Investment Officer, shall meet at least annually to determine operational strategies and to monitor results. The annual meeting date will be during the budget process. Prudence

The standard of investments applied by the Investment Officer shall be the "prudent investor" rule which states:

Investments shall be made with judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as their probable income to be derived.

The Investment Officer, acting in accordance with written procedures and exercising due diligence, shall not be held personally liable for a specific security's credit risk or market price changes, provided that these deviations are reported immediately and that appropriate action is taken to control adverse developments.

Disclosure

All members of the Investment Committee shall disclose to the City Council any and all personal or business relationships with any financial institution, broker, other agent or company involved in any manner with the investments of the City.

The Investment Officers shall invest the Town of Ransom Canyon funds with any of the following institutions or groups consistent with federal, state law, and City policies:

Securities, including collateral, shall be held by a third party custodian in the name of the City or on behalf of the City as evidenced by safekeeping receipts.

Limits of Maturity

The City Administrator/City Secretary will retain sufficient cash working funds to cover anticipated expenditures plus a surplus to handle most emergency situations. Excess funds will be invested in approved instruments, with maturities matching anticipated cash flow requirements. The Town of Ransom Canyon generally will not invest directly in securities maturing more than one year from the date of purchase.

No longer term investments will be made directly by the City without written authorization of the City Council and then only if the maturity coincides as nearly as practicable with the expected use of the funds.

Internal Controls

The City Administrator/City Secretary shall establish an annual process of independent review by an external auditor. This review will provide internal control by assuring compliance with policies and procedures.

Performance Standards

The investment portfolio shall be designed to obtain a rate of return throughout budgetary and economic cycles commensurate with the investment risk constraints and cash flow needs. Leslie,

I've included a site plan with Red Lines on it showing what part of the fence we want a variance on. We are wanting to add a 7'-0" fence on top of the retaining wall approx. 42-45" tall. The adjacent neighbors lots are higher and would like to have more privacy so that they can't look down into the Vititow's backyard. Let me know what else you need. Thank you

With that lot dug out the way it is, the top of their block wall is about ground level with their neighbors. Putting the top of their fence at a normal 7' height. I can see why you would want a taller fence for privacy. I wouldn't have any problem with a variance on that property.

[External] Variance letter

Ms. Randolph,

I am responding to the letter we received from you in regards to the variance requested at 2 West Brookhollow. I honestly don't think this will matter but I am going to object to the erection of a privacy fence exceeding eight feet tall issue.

The reason for my objection is that the builder first cut into the adjacent property, just north of this location, when putting in the pool and cinder block wall and did damage the natural environment of the land. This property is for sale but until then needed to remain like the rest of the surrounding landscape within the canyon. I understand the reason for asking for the privacy fence but this property could have been built up to the height of the existing structures at the beginning. Now is not the time to ask for permission as it goes against the current ordinance for all other residences of the community. If you are going to do it for one you must allow all others the same courtesy or be judged on showing favoritism.

Again I don't really feel like this will be listened to but I am going to be honest with my views on this matter. Thank you for taking the time to make us aware and allowing me to voice my opinion on this matter.

Respectfully,

James A Martin

All Structures must be located behind the front wall of the Residence. All outbuildings, except garages, must not be visible from any street. All residence buildings shall face upon the street adjacent thereto and building on a comer lot shall face the street adjacent to the end of the lot with the shortest length. Re: [External] Comments and Concerns Regarding Variance Request

I strongly oppose this request to alter the setbacks as it does not follow our deed restrictions nor does it follow the original approved subdivision plan by this developer. In addition, the properties will have hardly any yard and will not meet the intent of the original Ransom Canyon Development Plans. I am not sure we can go against the original deed restrictions put in place with the original development.

Do you think it would be appropriate to meet as a group to discuss this?

Good morning committee,

I am seeking comments to provide to the City Council at the May 9th meeting regarding the attached variance request from Quad K Investments, LLC. They request that the subdivision has zero lot lines with a 20-foot front setback. Keep in mind there is an 11-foot utility easement from the curb this would leave about 9 feet for the homeowner. The deed restrictions on the building lines and setbacks were included in the revision of building chapter 3 in the ordinance Sec 3.09.042. Thank you for your assistance.

Respectfully,

Leslie Randolph

Deputy City Secretary

RE: [External] Comments and Concerns Regarding Variance Request

Thank you for the opportunity to comment on this variance request. I would not be in favor of granting the variance reducing the setback from 35 feet to 20 feet, nor am I aware of "many" residences in Ransom Canyon with such reduced setbacks. In my opinion, such a development would be neither visually pleasing to the residents of Ransom Canyon nor functional to the prospective homeowners. In fact, it brings to my mind the many newer developments in Lubbock that appear more nearly to resemble apartment complexes than residences, with virtually no yards or open spaces.

This is not the appearance that the residents of Ransom Canyon have learned to appreciate.

Quad K Investments, LLC is requesting a setback variance to change the deed restrictions for the Ransom Ranch Subdivision to read:

No Residence or Structure may be located in violation of the setback lines shown on the Plat. Each Residence must face the front Lot line. All Structures must be located behind the front wall of the Residence. All outbuildings, except garages, must not be visible from any street. All residence buildings shall face upon the street adjacent thereto and building on a comer lot shall face the street adjacent to the end of the lot with the shortest length. The minimum side yard shall be zero (0) feet: however, there shall be at least ten (10) feet of separation between structures. When homes are constructed with a zero (0) side yard, five (5) feet on the lot adjacent to the zero (0) setback shall be dedicated as an access easement for the zero (0) setback home. There shall be a minimum of ten (10) feet from any property line adjacent to a street, except that in no event shall a residential garage be less than twenty (20) feet from any property line adjacent to a street. No building shall be located on its respective lot nearer than twenty (20) feet to the front curb of the street nor nearer than five (5) feet to the rear lot line. For the purpose of this covenant, eaves, steps, and open porches shall not be considered as a part of a building, provided, however, that this shall not be constructed to permit any portion of a building on a lot to encroach upon another lot.

Deed Restrictions require a house to be built with a thirty-five-foot (35) front setback from the curb, a five-foot (5) minimum side setback with a combined side setback of fifteen feet (15), and a rear set back of five feet (5) from the property line. They are seeking a variance from the City Council to allow them to build the homes in the subdivision with zero lot lines and a twenty-foot (20) front setback as listed above. Attached is the request received from Quad K Investments, LLC.

The city is seeking input from the neighbors directly in view of the property to determine if there is any objection to granting this variance. Please mark the appropriate box below and return it to City Hall no later than Monday, May 1st.
